

Mobile Mammography Driving Breast Health

A mobile mammography coach from Shared Imaging offers state-of-the-art women's health services conveniently in your community, with the same accuracy, privacy and quality care received in-house.

Why Mobile Mammography?

Expands Market Presence

Boost mammography volumes and extend reach to underserved areas.

Match Service Offerings to Demand

Imaging programs can move equipment between sites based on patient demand.

Improve Access to Screenings

Deliver services to women in their community, eliminating obstacles such as transportation barriers, time off from work, and childcare.

Brand Exposure

Partner with commercial entities to provide on-site mammography serving as an alternative method for brand awareness.

Only about half of U.S. women older than 40 get regular mammograms

5-year survival rate with early stage detection

6 out of 10 breast cancer cases are diagnosed at an early stage

Early diagnosis cancer treatment is 2 to 4 times less expensive compared to treating patients at more advanced stages

1 in 8 women in the United States will develop breast cancer in her lifetime

The Shared Solution

Customized Mobile Mammography Coaches

Hospital branded vinyl wraps, murals, colored ambient lighting and more, elevate the overall perception of your facility within the community.

Professional Staffing

Fully trained, certified and licensed clinical staff as well as expert drivers are available to all mobile mammography customers.

Marketing Strategy & Tools

Collateral and implementation plans are provided for a variety of campaigns including corporate on-site events and patient referrals.

State-of-the-Art Technology

Our mobile mammography coaches are equipped with advanced technology from most major manufacturers matching all the requirements of a permanent brick and mortar suite.

GOING MOBILE increases patient access to women's health services while improving patient outcomes.
